

8 X PAR36 ALU/BLK

Audience Blinder

The slightly different "lighting effect".

Well-known from big open-air concerts and equipped takes 8 Par 36 spots, this light effect is designed for stage use and also for discotheques.

The rugged casing takes 8 lamps, which are switched on simultaneously and blind the audience so strong that the surroundings cannot be figured out any more for a short time.

High quality at a low price makes this special light effect interesting for smaller discotheques and mobile discotheques, too.

The audience blinder is designed for floor-installation and also for ceiling-mounting and is equipped with two stable clamping screws.

Furthermore, the two spot lines can be turned in different directions thus enabling a wider spreading.
